# HAS YATES THROWN **TANNER OVERBOARD?**

Apparently He Has Pitched His Tent in the Hanna-Cullom Camp.

#### ALSCHULER - M'KINLEY CLUBS.

Hybrid Organizations Supposed to Be the Governor's Plan to Force Him Back Into Line-Factional Fight.

REPUBLIC SPECIAL. Springfield, Ill., Aug. 4 .- "We will not crook the pregnant hinges of the knee to John Tanner that thrift may follow fawning," emphatically declared a man who is as close to Yates as the candidate's own brother, to me in Jacksonville the other day. "Judge Yates has not asked help from Tanner, and he will not ask for help. "John Riley Tanner and his crowd of of-

ficeholders know how to play ball," he continued. "They know the place where the game takes place, and they know it is between Democrats and Republicans. If they want a hand in the game they must show themselves and do their duty as Repub-

"I know what I am talking about, and I know that Judge Yates has not asked help from Tanner, and I know he will not ask

"But the Yates campaign managers are showing evidence of having received a wad of money lately?" I suggested interroga-

"They have all the money necessary, was the quick reply, "and not a cent of it comes from Tanner or Van Cleave. Tanner controls thousands of dollars belong-ing to the Republican campaign fund, collected from the State officeholders for that purpose. We know it, and we think we know why none of it has been turned over to the State Committee."
Source of Yates's Funds.

He stopped for a moment, waiting for the "Why?" from me. "Well, The Republic was right in its ar ticles from Philadelphia, in which it stated that Tanner's hatred of Senator Cullom was so strong that be would prefer a Dem-ocrat elected as Cullom's successor. It was right when it stated that John Tanner had right when it stated that John Tanner had a barrel of money, but wouldn't give it up to help Yates unless Yates would sign such articles as Tanner demanded. As stated in The Republic, Judge Yates has no money and few wealthy friends, and if Tanner didn't contribute the fund raised for the campaign, Yates had only one other place to look for legitimate expense money," and again he stooped.

bounty.
"I don't propose to answer that question.
I will say that he has all the money necessary for immediate use, and that a good part of it was contributed by his own friends."

Now, all this has a bearing on reports that come directly from Chairman Rowe of the Republican State Committee, in Chicago. From Mr. Rowe's headquarters comes the authoritative statement that in many quarters of the State Alschuler-McKinley clubs are being organized by Republicans and that Democrats are smiling on such hybrid organizations.

Menard, Speaker Sherman of McDonough, Charley Cherry of Kendall and others of that faction.

No evidence is submitted to prove that Democrats are urging or encouraging the formation of such clubs. As a matter of fact, it is one method the Tanner faction of Republicans in Illinois has taken to show Yates that Tanner must be placated and must be taken inside the fort and siven a place at the Yates feast.

Judge Yates is not as dull of perception as some would make him appear. He played the Tanner end of the string until he had the Hanna-McKinley-Cullom fish hooked, and if we may judge by the interview I had with his close friend as quoted above, he is now in a position to toss the Governor out of the window and fasten himself to Hanna and Cullom.

But the Tanner people are showing their teeth in this threat to start a lot of Alschuler-McKinley clubs. It is probably one of the Tanner bluffs—a trick that will be discounted before it is fairly started. I will venture that if Judge Turner of Vandalla, who reported a scheme to organize these clubs in his neighborhood, will scratch deep enough, he will find a friend of John Tanner's at the bottom.

It is purely a row between Republican factions, and any attempt to involve the Democrats will end in disaster. The Democrats are for Bryan and Alschuler in Illinois.

"I would like to know the name of the

brains, too.

"By the way," and there was a world of significence in his words and manner, "what do you think would be the effect on the Republican party of Illinois if Yates is

Six true bills were voted on the specific charge that Smith, while manager of the Chicago elevator company, allowed about 500,000 bushels of grain to be shipped from the elevators of that company without the proper cancellation of the warehouse receipts, which were hypothecated.

Smith was charged in May of this year with having speculated with the funds of the company for a period of more than two years, and with having borrowed funds from a prominent broker on the uncanceled warehouse receipts. The net deficit shown on the books of the company was \$248.000.

The charges against Smith were investigated by a commission appointed by Governor Tanner, which included John J. Mitchell, and which has not yet made its report, and by a committee from the Board of Trade, which found against Smith.

Smith is one of the most prominent members of the board, and, besides being a member of Lincoln Park Board, he is a candidate for Drainage Trustee.

Yates's Position.

Two weeks ago Yates was ostensibly with Tanner. To-day he is with Cullom and McKinley, and the Governor is outside the agency, hoping for a request to enter with his braves. He would be welcome if he would consent to take rear seats with his crowd, but he wants to be the "whole thing" and dictate in his ancient lordly way. The Governor and the Governor's people don't visit State headquarters in Chicago. I heard a story the other day about a trip Van Cleave pald to Rowe that illustrates a modern up-to-date method of running State politics by the Republican State Committee. It appears that Van Cleave walked into headquarters and was met by a little boy, the only occupant. He asked for Chairman Rowe.

moment," brusquely handing his card to the lad, who disappeared in the inner room.

"Papa says he will be out in a few minutes—he is very busy just now," and the boy buried himself in an illustrated Republican paper.

A few minutes afterwards a lady bustled into headquarters and immediately entered the room where Chairman Rowe was concealed. From the open door came a chorus of feminine voices and feminine laughter.

"Well, blank, blank," sputtered Van Cleave, the hot blood rising in a torrent to his face, "if they aln't holding a pink tea in Republican headquarters, and the business of the campaign—" but he was too angry to say another word, and rushed out of the room.

Republican State headquarters are now known as "pink tea parlors," and meetings of the State Committee as "pink teas."

Not having obtained from the Tanner Board of Health a license to practice as a clairvoyant, I evaded the issue and left the appointee of the Governor grinning and wagging his head in the negative.

I don't believe that the cry of the Tanner faction that Republicans are forming Alschuler-McKinley clubs will scare Yates or Rowe or Fleidhouse-or Cullom or McKinley. I know that Democrats will not permit themselves to be drawn into any such a combination-all Democrats are for Bryan as much as they are for Alschuler. There may be a score of gold Democrats left in Illinois who would like to attach themselves to something or other with a shade of respectable Democracy on its banner. To such the organization of an Alschuler-McKinley club would be most welcome.

If clubs of this character are not organized by former gold Democrats it may safely be put down that they are the product of the Tannerites, and are not intended to last longer than to bring Yates to a realiza-Texas Stenographers Adjourn.

And it is no sure thing but Yates will be forced to make his peace with the Governor and resume the relations that existed prior to the Philadelphia Convention, and before the election of Graeme Stewart as National Committeeman from Illinois. Beyond a doubt it was Stewart who conducted negotiations between the National Committee and Yates's managers on the State Committee. From the moment Stewart was named on the Executive Committee of the National Committee by Hanna, the Tanner plan of controlling Yates began to disappear.

# **ANOTHER KILLING** IN DEATH VALLEY.

John Thomas Brady Shoots Jim Sproule, a Negro Porter, in Manley's Saloon.

RESULT OF AN OLD GRUDGE.

Brady Says His Victim Was Threatening to Kill Him When He Fired-Had Had Trouble Before.

John Thomas Brady shot and killed Jim Sproule, a negro porter, about 8 o'clock last night in Pat Manley's saloon at Twentyfirst and Chestnut streets. The men quarreled over some trivial matter, it is said, and the argument became heated and culminated in a few minutes later in the shooting. The negro was sent to the City Dispensary, but died on the way, and his body

was sent to the morgue. After the shooting, Brady walked out of the saloon. About half an hour later he was arrested at the corner of Twentysecond and Olive streets. The officers brought him to the City Hospital, where they expected to find Sproule, not knowing that he was dead.

Pat Manley, proprietor of the saloon in which the shooting occurred, said that Brady was in the wineroom and that the porter spilled some water on the floor, which precipitated the argument.

porter spilled some water on the floor, which precipitated the argument.

"I told Brady and the porter that I did not want any trouble in my place," said Mr. Manly, "and asked them to go cutside if they wished to continue their argument. They went outside, and as I heard nothing more from them I concluded that the row had been settled. The porter, Sproule, then went out of the saloon to serve some crimks, and on his return was accompanied by Brady. They both passed through the door together and I heard Brady ask: "Are you ready?" My back was turned to the men, and before I turned around I heard the report of a pistol and saw Sproule-fall to the floor back of the bar. Brady then walked away."

Brady said last night that he and the negro had been at outs for two years. "He's a fresh nigger," said Brady, "and he thinks he's a bully. He became offensive about two years ago when serving drinks to me. I called him down, and since that time we have frequently had words, but no encounters.

"I shot him because he threatened to shoot my head off and reached toward his pistol pocket for a gun. As he came through the door he dropped the tray that he had in his hand and reached around for his gun. I did not want to be shot, so I shot him."

# Do Not Treat All Diseases, but Cure All I Treat.

I made up my mind, soon after graduating from college, that no one man was great enough to master the entire field of medicine and surgery. Many physicians have tried to do this, but they have met with results usually disappointing to themselves and often disastrous to their patients. For this reason I determined early in my professional career to confine my practice strictly to a single line of diseases, and to originating and perfecting cures for them. I therefore treat only what I am absolutely certain that I can positively cure to stay cured-VARICO-CELE, STRICTURE, CONTAGIOUS BLOOD POISON, NERVO-SEXUAL DEBILITY and all reflex complications and associate diseases and weaknesses of men. To these maladies alone twenty-three of the best years of my life have been earnestly devoted, and on them all my faculties are concentrated. My consultation and operating rooms are thoroughly equipped with every scientific apparatus, instrument and device essential to the most modern methods of practice, and my references, both professional and financial, are among the best citizens of St. Louis and vicinity, who have been cured by me and made happy. I want every afflicted man to fully and freely investigate my treatment. I use no Belt, Specifics, Free Samples, Trial Treatments, Electro-Medical Combinations or similar devices, which do not and cannot cure diseases peculiar to men. My education, my experience, my conscience, condemn all such quackery. I treat each case separately, scientifically, closely watching it and carefully following its symptoms with varied remedies through every stage, and stake my reputation on the result. The diseases that constitute my specialties are more fully commented upon below, and are well worth the careful perusal of all in need of medical at-

## Varicocele.

Whatever may be the cause of varicocele, its injurious effect is well known. It depresses the mind, weakens the body, racks the nervous system, and ultimately leads to a complete loss of sexual power. If you are a victim of this dire disease come to my office and let me explain to you my process of treating it. You will then not wonder why I have positively cured more than 700 cases of varicocele during the past 12 months. Under my treatment the patient improves from the very beginning. All pain instantly ceases. Soreness and swelling quickly subside. The pools of stagnant blood are forced from the dilated veins, which rapidly assume their normal size, strength and soundness. All indications of disease and weakness vanish completely, and in their stead come the pride, the power,

### Stricture.

It matters not how long you have suffered from stricture, nor how many different doctors have disappointed you, I will cure you just as certainly as you come to me for treatment. I will not do it by cutting or dilating. My treatment is new, entirely original with me, and perfectly painless, It completely dissolves the stricture and permanently removes every obstruction from the urinary passage. It stops every unnatural discharge, allays all inflammation, reduces the prostate gland when enlarged, cleanses and heals the bladder and kidneys when irritated or congested, invigorates the sexual organs, and restores health and soundness to every part of the body affected by the disease.

# Nervo-Sexual Debility.

Men, many of you are now reaping the result of your former folly. Your manhood is failing, and will soon be lost unless you do something for yourself. There is no time to lose. Impotency, like all sexual diseases, is never on the standstill. With it you can make no compromise. Either you must 

master it or it will master you, and fill your whole future with misery and indescribable woe. I have treated so many cases of this kind that I am as familiar with them as you are with the very daylight. Once cured by me, you will never again be bothered with emissions, drains, prematureness, small or weak organs, nervousness, failing memory, loss of ambition, or other symptoms which rob you of your manhood and absolutely unfit you for study, business, pleasure or marriage. My treatment for weak men will correct all these evils, and restore you to what nature intended-a hale, healthy, happy man, with physical, mental and sexual powers

# Contagious Blood Poison.

On account of its frightful Mideousness contagious blood poison is commonly called the king of all venereal diseases. It may be either hereditary or contracted. Once the system is tainted with it, the disease may manifest itself in the form of scrofula, eczema, rheumatic pains, stiff or swollen joints, eruptions or copper-colored spots on face or body, little ulcers in the mouth or on the tongue, sore throat, swollen tonsils, falling out of the hair, or eyebrows, and finally a leprous-like

decay of the fiesh and hone. If your have any of these or similar symptoms you are cordially invited to consult me immediately. If I find your fears are unfounded I will quickly unburden your mind. But if your constitution is infected with this virus I will tell you so frankly and show you how to get rid of it. My special treatment for contagious blood poison is practically the result of my life work, and is indersed by the best physicians of America and Europe. It contains no dangerous drugs or injurious medicines of any kind. It goes to the very bottom of the disease and forces out every particle of impurity. Soon every sign and symptom of blood poison disappear completely and forever. The blood, the tissue, the flesh, the bones and the whole system are cleansed, purified and restored to perfect health and the patient prepared anew for the duties and pleasures of

#### Associate Diseases.

In curing an ailment of any kind I never fail to remove all reflex complications or associate diseases. If the case is Varicocele the weakness caused by it disappears. If it is Stricture and has developed in Prostatic, Bladder or Kidney affections, the injured organs are all restored to a perfectly healthful condition. If it is Contagious Blood Polson, any and all Skin, Blood and Bone diseases arising from the taint are entirely and permanently eliminated from the system. If it is impotency the many distressing symptoms following in its train and indicatng a premature decline of physical, mental and sexual power are totally removed and rapidly replaced by the youthful energy of robust manhood. Hence all resulting ills and reflex complications, which may be properly termed associate diseases, and which, in fact, are often more serious than the original ailment that gives rise to them-all, I say, disappear completely and forever with the cure of the main malady.

## Correspondence.

Most cases can be treated successfully at home. One personal visit is preferred, but if it is impossible or inconvenient for you to call at my office write me a full and unreserved history of your case, plainly stating your symptoms. Physicians having stubborn cases to treat are cordially invited to consult me. I make no charge for private counsel, and give to each patient a legal contract in writing, backed by abundant capital, to hold for my promise. Address all communications to W. A. COOK, M. D., or to the COOK MEDI-CAL COMPANY, 610 Olive Street, St.

# DISCONTENTED CREEKS.

Do Not Favor Allotments and Establish Their Own Government.

REPUBLIC SPECIAL

REPUBLIC SPECIAL.

Wichita, Kas., Aug. 4.—The full-blood Creek Indians are refusing to take their allotments, and many of them have withdrawn from the regular Creek Government and have established a pure Indian Government of their own. Chinnuble Harjo, a poet, is at the head of the new Government, and he will run the Government on the same plan as did Isparhecher, who was defeated at the last election by Pleasant Porter.

No white persons or half-breeds will be allowed to come and live in the full-blood settlements, and the full-bloods will not go amongst them. The Government will be run according to directions from the Great Spirit, and the Indians will take part in all the wild dances of a century ago. The full-blood Creeks have never favored the allotment of their lands, and this kind of a movement has long been expected. They will not cause any trouble if let alone. The Seminole tribe will also join the full-blood Creeks, it is understood, in going back it ancient customs.

# GIRLS PLAN BOYCOTT.

Kansas Maidens Will Not Go With Any but Bryan Men.

REPUBLIC SPECIAL Wichita, Kas., Aug. 4.—The Populist party has introduced the women into the campaign this year. Anna L. Diggs, State Labrarian, is responsible for their introduction, but the women are glad of the chance to get out and yell for their favorites.

chance to get out and yell for their favorites.

Most of the women of the State are of a Democratic turn of mind, having met W. J. Bryan personally. Mr. Bryan has been in all of the larger towns of the State and most of the women who met him will work for him. They will commence within a short time to organize clubs and to work for their candidates.

Young women will not go with any young men who fail to vote and work for the ticket they are supporting. They will hold socials at the country schoolhouses, and there pour into the ears of the young men the words of their minds regarding the man who should sit in the President's chair.
